

NATIONAL AEROSPACE SCIENCE AND TECHNOLOGY PARK (NASTP), PAKISTAN

1. The National Aerospace Science and Technology Park (**NASTP**), approved by Government of Pakistan, is a pioneer organization in creating opportunities for joint work between industry, academia and government (Triple Helix Model) turning it in a technology ecosystem in the country.
2. Inherent features of NASTP make it an attractive prospect for firms and enterprises interested in investing in a technology park that is at the forefront of aerospace and related technological innovations. The park's emphasis on linking academia and industry, coupled with its strategic significance, positions it as a hub for cutting-edge research. The combination of tax and duty exemptions, forex benefits, and a supportive regulatory framework makes NASTP an attractive destination for both national and international investors. Detailed information regarding NASTP is available on the official website <https://nastp.gov.pk>.
3. Pakistan Embassy, Beijing (Commercial Counsellor Office) can be approached to establish liaison with relevant departments of NASTP.
